EDUCATION

Banasthali Vidyapith

Bachelor of Technology (Information Technology)

2022 – 2026

CGPA: 7.48

SKILLS

- **Languages:** Python, C++, SQL, JavaScript, PHP, Node.js.
- **Developer Tools:** Git, GitHub, VSCode, IntelliJ IDEA, Jupyter Notebook, SQL Server Management System.
- **Soft Skills:** Team Collaboration, Agile/Scrum Exposure, Ownership Accountability, Analytical Thinking, Adaptability, Team Leadership, Time Management, and Cross Functional Communication.
- **Coursework:** Database Management System, Object-Oriented Programming System, Operating System, Data Structures, and Algorithms.

EXPERIENCE

GIIT Solutions Pvt. Ltd. (Associate Software Engineer - Full Stack Intern)

Gurgaon | 2025 – Present

- Working on **KnockonBrain** (<https://knockonbrain.com/>) — a product-based website built using PHP, JavaScript, HTML, CSS, and MySQL.
- Enhancing existing website features and introducing new product-level functionalities to improve user engagement and performance.
- Handling frontend UI improvements and backend logic implementation, including form handling, database integration, and API interactions.
- Optimizing database queries and improving website responsiveness for better performance and scalability.

PROJECTS

YouTube Hand-Gesture Control

June 2025

- **Motivation:** To build a hands-free, intuitive control system for media playback — useful when multitasking or for accessibility support.
- Built a real-time system to control YouTube playback using hand gestures captured via webcam.
- Used MediaPipe to extract 21 hand landmarks and detect finger states for gesture recognition.
- Mapped gestures (play/pause, skip, rewind, volume up/down) to keyboard events using Python.
- Implemented a cooldown mechanism to avoid duplicate triggers and improve user experience.

Typing Speed Game

June 2024

- **Motivation:** To provide a simple, engaging tool for users to practice and improve their typing speed and accuracy.
- The Typing Speed Test Game is an interactive web application designed to help users improve their typing speed and accuracy in a fun and engaging way.
- Features Multiple Difficulty Levels: Easy, Medium, and Hard modes to challenge typists of all skill levels.
- Real-Time Speed and Accuracy Tracking: Measures Words Per Minute (WPM) and accuracy dynamically.
- Responsive Design: Clean UI optimized for desktop and mobile devices.

Comment Analyser

May 2025

- **Motivation:** To help platforms and users quickly gauge public sentiment and understand feedback trends through automated comment analysis.
- Developed a web application to analyze user comments and classify them as positive, negative, or neutral sentiments.
- Implemented ML model (SVM, Naïve Bayes, Logistic Regression) for text classification with comparative accuracy evaluation.
- Built the backend using Flask and integrated a clean, responsive frontend with Tailwind CSS.
- Enabled real-time comment analysis with graphical insights using Chart.js.
- Focused on usability, data preprocessing (tokenization, stopword removal), and model performance optimization.

Weather Application

Jan 2024

- **Motivation:** To provide users with quick and easy access to worldwide weather information, helping them plan and stay updated on weather conditions.
- Used JavaScript, HTML, CSS, OpenWeather API
- Built a responsive weather dashboard displaying live data for 1000+ global cities using OpenWeather API.
- Received 100% API uptime handling and optimized UI for mobile, tablet, and desktop screens.
- Location Search: Search functionality to find weather information for specific cities or regions.

ACHIEVEMENTS

- **Coding Platforms:** Solved over 300+ questions on **LeetCode**.
- **Certifications:** Certifications in Development (Internshala), Machine Learning (AcmeGrade), Software Job Simulation (Goldman Sachs) and Cloud Computing (Microsoft Azure) showcasing technical proficiency.
- **Academic Activities:** Delivered a Seminar on Recommender System
